

AI-Powered Influencer Campaign Tracker

Campaign: CareerBoost Learning App

Submitted By:

S.P. Ashwatha

Internship Program:

Digital Marketing Internship

1. Introduction

This project focuses on identifying and evaluating micro-influencers for promoting the CareerBoost Learning App. An AI-based scoring system was used to assess influencer suitability based on engagement, audience relevance, reach, and content style. The objective was to select the most effective influencers for a digital marketing campaign.

2. Project Objective

The objective of this project is to analyze influencer performance, rank influencers using AI-based scoring, and identify the most suitable candidates for a marketing campaign.

3. Influencer Database

The table below shows the complete influencer database including platform, followers, engagement rate, content style, brand fit, reach score, AI score, and campaign strategy for all 10 influencers.

Untitled spreadsheet ☆ Saving... File Edit View Insert Format Data Tools Extensions Help												
100% 123 10 + B I A												
9	A	B	C	D	E	F	G	H	I	J	K	L
1	Influencer Name	Platform	Followers	Engagement Rate	Content Style	Brand Fit	Reach Score	AI Score	Campaign Strategy			
2	StudyWithPriya	Instagram	18000	7.20%	TNPSC Tips	High	8	92	Mock Test Promo			
3	SCMasterRahul	YouTube	22000	6.80%	SSC Guidance	High	9	90	Video Sponsorship			
4	EnglishWithMee	Instagram	15000	7.50%	Spoken English	High	8	91	Short Reels Campaign			
5	NPSC_Asha	YouTube	12000	6.50%	TNPSC Motivation	High	7	86	Live Session Promotion			
6	AttitudeGuru	Instagram	10000	5.90%	Aptitude Practice	Medium	6	80	Quiz Story Promotion

4. AI Scoring Methodology

Influencers were evaluated using the following weighted criteria to generate an AI Score for each candidate:

Criteria	Weightage
Engagement Rate	40%
Brand Fit	35%
Reach Score	25%

Based on these factors, an AI Score was assigned to each influencer to determine campaign suitability. Engagement rate was given the highest weight as it reflects audience trust and interaction quality.

5. Dashboard and Visual Analysis

The following charts provide a visual analysis of influencer performance across key metrics.

AI Score Comparison

6. Top 3 Influencer Selection

Based on the AI scoring analysis, the following three influencers were selected as the most suitable candidates for the CareerBoost Learning App campaign:

Rank	Influencer	AI Score	Reason
1	StudyWithPriya	92	High engagement and TNPSC relevance
2	EnglishWithMeena	91	Strong student learning audience
3	SSCMasterRahul	90	High reach in competitive exam niche

Figure 5: Top 3 Influencer Selection Table

Rank	Influencer	AI Score	Reason
1	StudyWithPriya	92	High engagement and TNPSC relevance
2	EnglishWithMeena	91	Strong student learning audience
3	SSCMasterRahul	90	High reach in competitive exam niche

7. AI-Based Influencer Selection Report

The AI-based report below summarizes the influencer evaluation findings and provides justification for the final selection.

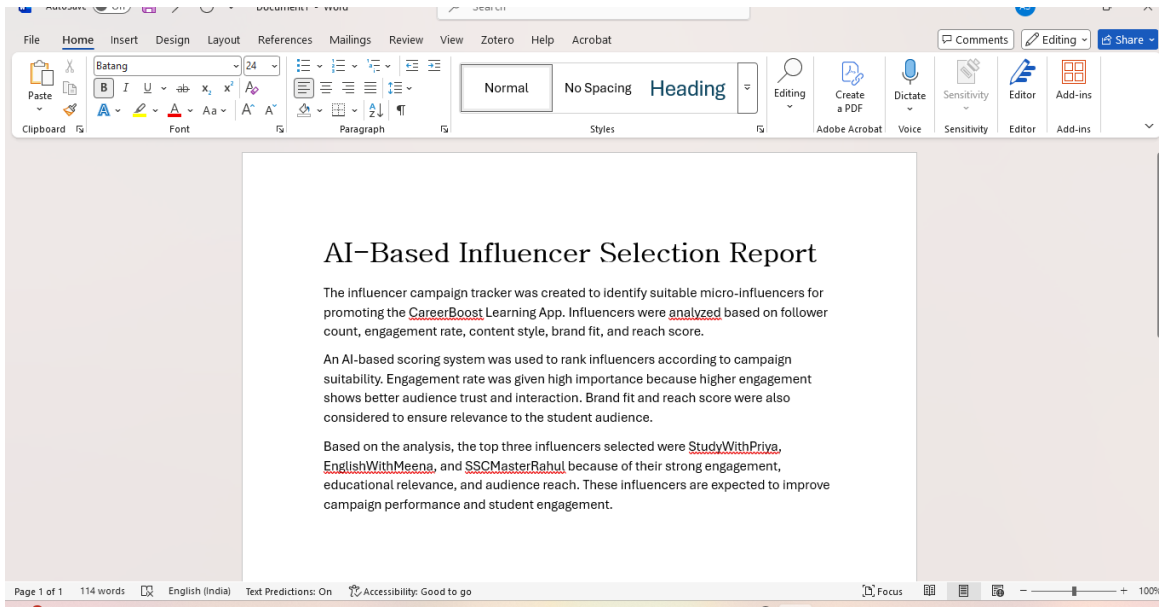

Figure 6: AI-Based Influencer Selection Report

8. Campaign Strategy

The table below outlines the recommended campaign strategy for each of the three selected influencers:

Influencer	Platform	Campaign Strategy
StudyWithPriya	Instagram	Promote mock tests and TNPSC preparation reels.
EnglishWithMeena	Instagram	Promote spoken English learning resources through short-form content.
SSCMasterRahul	YouTube	Promote competitive exam preparation strategies and student awareness campaigns.

9. Influencer Outreach Messages

The following outreach messages were prepared for initiating collaboration with the three selected influencers:

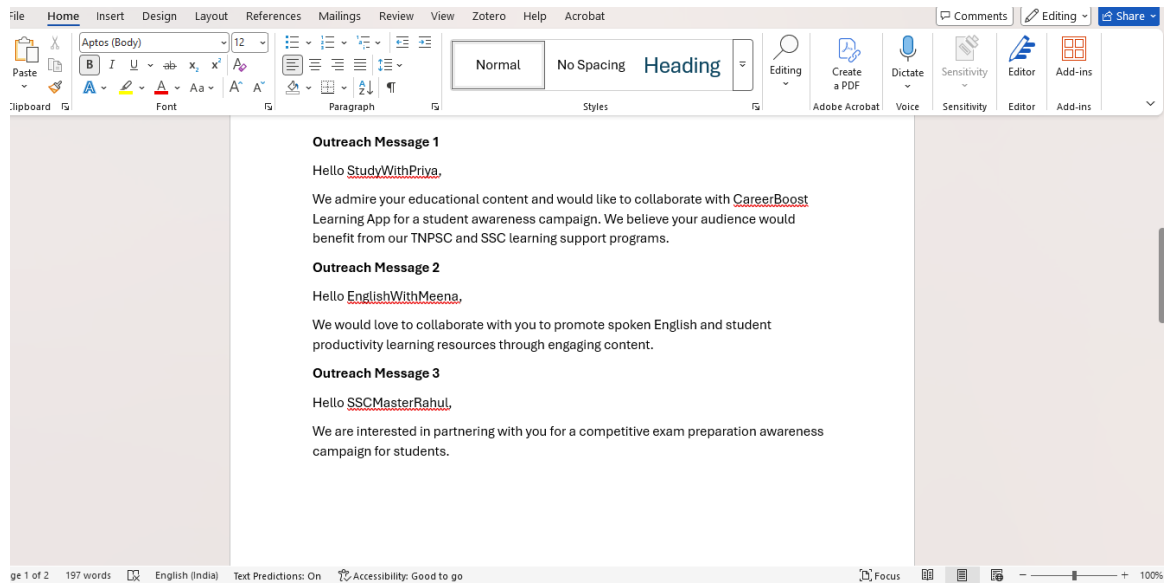

Figure 7: Influencer Outreach Messages

Outreach Message 1 — StudyWithPriya

Hello StudyWithPriya,

We admire your educational content and would like to collaborate with CareerBoost Learning App for a student awareness campaign. We believe your audience would benefit from our TNPSC and SSC learning support programs.

Thank you,
Marketing Team
CareerBoost Learning App

Outreach Message 2 — EnglishWithMeena

Hello EnglishWithMeena,

We would love to collaborate with you to promote spoken English and student productivity learning resources through engaging content.

Thank you,
Marketing Team
CareerBoost Learning App

Outreach Message 3 — SSCMasterRahul

Hello SSCMasterRahul,

We are interested in partnering with you for a competitive exam preparation awareness campaign for students.

Thank you,
Marketing Team
CareerBoost Learning App

10. Results and Findings

The AI-based evaluation identified StudyWithPriya, EnglishWithMeena, and SSCMasterRahul as the most suitable influencers. These creators demonstrated strong engagement rates, audience relevance, and campaign potential. Visual analysis further supported the selection process.

11. Conclusion

The Influencer Campaign Tracker successfully demonstrated the use of AI-assisted analysis in influencer marketing. The project helped identify high-performing influencers and provided data-driven recommendations for campaign execution.
