How to Stop Procrastination

Instagram

Every student's biggest enemy — procrastination. Beat it! ■ ■ Start Small — Just 5 mins. Action creates momentum. ■ Make a Plan — Write goals. A plan kills confusion. ■ Remove Distractions — Phone in another room. ■ Reward Yourself — Celebrate every win. Small progress is still progress! Share this! ■

LinkedIn

Procrastination is not a time management problem — it's an emotional regulation problem. We procrastinate to avoid negative emotions: anxiety, self-doubt, boredom. Four evidence-based strategies: 1. Start Small — 5-minute rule lowers the barrier 2. Make a Plan — structure reduces decision fatigue 3. Remove Distractions — environment beats willpower 4. Reward Yourself — positive reinforcement builds habits
